## City of Sheffield Hatters

When the Sheffield Hatters were formed in 1961 they became the first women's basketball team in England, Since then, the club had developed into the most successful women's sports club in the country.

The club has dominated English Women's Basketball since the early 90's winning numerous national honours. 2015 saw the club make history by winning all 3 titles in the first year of the WBBL making a tally of 60 National Titles in all.

The club has a reputation for providing playing and coaching opportunities for girls and women at all ages, The junior development programme has seen many young players move into the senior team and go on to win international honours.

Over the years the club has worked hard to raise the necessary funds to keep running. The Sports Dinners have been a very successful as well as very enjoyable way of doing so..

Another success story for the club is the number of unpaid volunteers who continue to work hard to be a beacon for women's sport

Please support our club and help us to continue with the great work we do.
